

**2015 Global Classroom:  
Geodesign  
Engineering the Transition**  
11 Weeks  
June 15 - August 27

## Global Energy Network Institute 2015 Global Classroom

Dear Friend & Supporter,

The Global Energy Network Institute (GENI) will be hosting our **4th Annual Global Classroom at the World Resource Simulation Center, this Summer 2015.**

GENI is a nonprofit organization that conducts research and education into the development of electric energy grids between nations and continents, tapping abundant renewable energy resources. **Our focus is sustainability.**

This year we are expanding our agenda with the topic: *“Geodesign: Engineering the Transition to Clean Energy and Water for All.”*

We will build on the previous Global Classroom series which explored sustainable development and building resilient cities. **Geodesign will study how we look at issues comprehensively and anticipate future growth challenges.** Then we need to learn from best practices, new technologies, and engineer a future that will meet the needs of a nation and cities.

This 11-week program will attract paying community guests each week and is webcast live to our global friends and members, and archived for future viewing. The program is attended by government representatives, engineering officials, environmental consultants, university (UCSD & SDSU) administrators, and community leaders.

The impact of the 2015 Global Classroom is highly dependent on the support from our sponsors to fund our 24 international and local students, six public presentations, and numerous local meetings.

**Your support for the Global Classroom is an opportunity for recognition and awareness from institutions across Southern California. Included in this Packet are the Sponsorship Benefits Page and Sponsor Information Form. Please consider an appropriate level for your company.**

If you have any questions or suggestions, **please feel free to contact us at (619) 234-1088 or via email at [peter@geni.org](mailto:peter@geni.org).** We look forward to your involvement this summer.

Sincerely,

Peter Meisen  
GENI President

## Sponsorship Levels & Benefits

---

### Platinum Sponsor - \$10,000

- Lead Sponsor Recognition at all 6 presentations
- Lead Sponsor Recognition on all social media
- Reserved Seating upon all 6 presentations
- Verbal Acknowledgement at all 6 presentations
- Advertisement on the Global Classroom Web Page
